American Red Cross
Thank You

Dear Mrs. Weinkauf,
Thank you for the thoughtful gift from Tulsa SAME in support of the American Red Cross Tulsa Area Chapter. We hope you take comfort in the good that will come from your generous support.
Your gift enables the Red Cross to provide exactly what is needed to help victims of disasters including food, clothing, shelter and medication replacement; to educate people about how they can be prepared for the unexpected from tornadoes to man-made events; to provide CPR and First Aid training in workplaces and community centers; to transmit vital emergency messages between members of the U.S. Armed Forces and their families back home and to mentor young people.
Because the need is real, your American Red Cross is there to help. On behalf of all those whose lives are touched by your kindness, THANK YOU. We value your friendship and appreciate your support.
Sincerely,
Mary C. Ogle
Chief Executive Officer

The Tulsa Post is assisting with the 2005 Tulsa Regional Science & Engineering Fair, which will be held February 26-27, 2005. This is an annual event where students are recognized for excellence in the science and engineering fields. Several awards, including three SAME awards, will be presented to deserving students.

We are seeking volunteers to serve as judges. The judging will be held Saturday the 26th of February. This is a chance to provide a great community service and it should be interesting and fun. If you are interested in volunteering, please contact Clif Warren at 918-669-7671 or Clif.Warren@swt03.usace.army.mil.

Who We Are

As a global engineering and technical services leader with a strong, continuing commitment to reducing costs and providing innovative solutions, URS provides engineering and technical services for some of the world's most complex and challenging projects. From supporting homeland security and environmental programs to designing federal facilities, and maintaining and improving critical military infrastructure, URS serves virtually every Department of Defense agency. Through our URS Divisions, we offer a comprehensive range of high-quality planning and design, systems engineering and technical assistance, program and construction management, and operations and maintenance services.

Our broad-based expertise is a valued resource for federal, state and local agencies as well as private clients in the chemical, manufacturing, pharmaceutical, forest products, mining, oil and gas and utilities industries. Within Oklahoma, Texas, Arkansas, Kansas, New Mexico, and Louisiana URS offers our clients over 1,700 technical and professional staff to meet the needs of our clients.

URS’ team of talented professionals has the enthusiasm and skills that reflect our standing as an industry leader. In August 2002, URS acquired EG&G Technical Services. EG&G is a leading provider of technical operations and maintenance services to the U.S. government, and support services related to global threat reduction and homeland defense.
