President’s Message
Charley Wall
President, Tulsa Post

It is the beginning of March and it looks as though springtime has arrived. Let’s hope it stays!

On Sunday, February 28, I had the honor to be with LTC Snyman to present awards to five deserving high school students for their impressive work at the Tulsa Regional Science and Engineering Fair. The U.S. Army awards program recognizes high school student projects in the following categories: Environmental Sciences, Mathematics and Computer Science, Life Sciences, Physical Science, and Engineering. The projects are judged based on Overall Creative Ability, Scientific Thought or Engineering Goals, Thoroughness, Demonstrated Skill, and Clarity of Information Presented. On the preceding Saturday, seven post members volunteered their time to judge approximately 30 projects. The winning projects were very well done, and we had a difficult time selecting an overall winner. Kudos to post member Mr. Chris Strunk for organizing and leading this endeavor and to the other volunteers. We had a great time.

The Tulsa Post cosponsored with the Tulsa Engineering Foundation (TEF) the E-Week Student Breakfast on Friday, February 19. A series of presentations were given to a full house of students from the region interested in pursuing engineering. Our post member Ms. Ramona Willig provided the presentation on civil engineering. Well done Ramona!

The Post meeting for March will be a field trip to Webbers Falls Powerhouse to tour the power plant. Look further in the newsletter for information on this March 25th trip. April 13-14 will bring our Joint Future Work and Small Business Conference with the Arkansas Post to be held in Tulsa this year. It will be another great conference. Please take time to register now. Registration is open and space is limited. Don’t be too late.

The National SAME Conference will be held in Atlanta in May. Also, watch for details about an upcoming Young Member event in June!

Charley Wall
2010 Tulsa Post President
REMINDER – This week Thursday, March 25th we will tour the Webbers Falls Powerhouse and Turbine Rehabilitation located 1.25 hours southeast of Tulsa, Oklahoma. This unique opportunity is very exciting since the Tulsa District is in the process of retrofitting the powerplant’s inclined-axis turbines. There are only 4 facilities in the U.S. that utilize inclined-axis units of this magnitude and Webbers Falls is one of them.

- We will travel by chartered bus and leave from the Tulsa COE District office at 12:00pm. We ask that everyone pack their own sack lunch for the trip and expect to return to the Tulsa COE District office at 5:00pm. Space is limited so register quickly to reserve a seat on the bus.

- If you plan to attend, please RSVP with Heather Tittjung at (918) 582-2552 or Heather_Tittjung@URSCorp.com.

Webbers Falls (WF) Powerhouse and WF Lock and Dam are located on the McClellan-Kerr Arkansas River Navigation System near Webbers Falls, Oklahoma. Initial construction of the WF Lock and Dam started in 1965, and the project was opened in 1970 with the hydroelectric power units becoming operational in 1973. The run of river plant contains three 23 MW Kaplan inclined-axis generating units with a total rated capacity of 69 MW. The WF Powerhouse, along with its sister units at the Ozark plant in Ozark, Arkansas, were the first inclined-axis units of this magnitude.

We hope to see you then!
Turbine Rehabilitation Project Features and Description

Major problems with the main shaft runner coupling bolts occurred and resulted in significant outages from the time that the units were placed in service. As an answer to these continuing outages and associated loss in generation, a major rehabilitation was authorized in July 2001. The rehabilitation scope of work includes repair of the turbine bay and generator bay bridge cranes and head water and tail water gantry cranes, replacement of the turbine runners, shafting, governors, and switchgear, rehabilitation of the wicket gates, and rewind of the generators, which will include an incidental benefit of being up rated from 23 MW to 25 MW. The current cost of the WF rehabilitation project is $69.2 million with an estimated contract completion date of 2013.

Major Project Features and Schedule

- **Webbers Falls Crane Rehabilitation**: The bridge cranes were completed in 2009, allowing turbine disassembly to begin. The gantry crane rehabilitation is scheduled to be completed in 2010.

- **Webbers Falls Turbine Rehabilitation**: Work is scheduled to be completed in 2013.

- **Webbers Falls Generator Rewind**: Work is scheduled to be completed concurrent with the turbine rehabilitation.

For additional information contact:
Mr. Daniel Brueggenjohann

Tulsa, Oklahoma 74128

Cut view of the powerhouse, showing the design of the slant axis turbines at both Ozark and WF. Note that in this picture the turbine is at a 12° angle from horizontal, which is a feature unique to WF and Ozark hydroelectric plants in North America.

Gate barrel and wicket gates, which are also undergoing rehabilitation, being removed for the first time since they were constructed in 1973.

Aerial photograph of the WF Powerhouse and WF Lock and Dam on the Arkansas River.
AMEC is one of the largest engineering & environmental services companies in the world, and is unequaled in terms of client responsiveness. AMEC employs approximately 22,000 people in more than 33 countries, with more than 7,900 professionals in North America, and annual revenues of $4.5B. AMEC is a supplier of high-value consultancy, environmental, engineering, and project management services to government and private clients locally and globally. AMEC has been rated by Dow Jones as one of the Top 10% industry leaders in the World Sustainability Index for the global support services sector for each of the last four years. Recognition by the Dow Jones reflects our consistent efforts to design and deliver our services in a sustainable manner that minimizes costs, improves risk management, and maximizes efficiencies for smooth and effective delivery. As a global environmental, engineering, and project management firm with a large portfolio of diverse experience dealing with the execution of complex and concurrent projects, AMEC brings the benefits of both local knowledge and world-class project management expertise to our clients. AMEC’s core expertise, use of local offices, and partnerships with premier technology vendors/subcontractors puts World Skills On Your Doorstep.

Our technical areas of expertise include:

- Consulting & Design
  - Engineering
  - Environmental Management, Planning, and Compliance
  - Geotechnical Engineering
  - Materials Testing
- Water Resources
- Construction Management
- Property & Infrastructure Development
- Range Design and Construction
- Military Munitions Response

Regionally, we have offices and staff in Oklahoma City, Dallas/Fort Worth and Topeka.
We have been a member of SAME since 1995, including participation in approximately 75 posts, including Tulsa, Dallas, Fort Worth and San Antonio posts. Our involvement and awards include the 2006 J.W. Morris Sustaining Member Award, annual sponsor of the National, and three members on the National Board of Directors.

For more information contact Julie Hamilton at (480)940-2320. Please visit our web sites at www.amec.com and www.amec.com/earthandenvironmental.
REGISTRATION IS OPEN!

Or visit the Tulsa Post website at — http://posts.same.org/tulsa/

Hard Rock Tulsa Hotel & Casino
777 West Cherokee Street, Catoosa, OK 74015
Reservations Phone: 1-800-760-6700
www.HardRockCasinoTulsa.com

Hotel rate is $81/night plus 6% tribal fee. A block of 75 rooms is available at this rate.
Online Conference Code: 041310SAME
Phone Registration Code: US Army Corps of Engineers

Attendance fee is $250. Please register online at https://www.regonline.com/2010_same_tulsaarkansas_post_future_work_and_small to ensure your conference badge name and title are correct.

For more information, contact Ramona Willig at ramona.e.willig@usace.army.mil or Earl Groves at earl.groves@swt03.usace.army.mil.

Sponsorship Opportunities

Overall Conference Sponsorships
$3000 Diamond sponsors will receive a full page ad in the program, three conference attendees.
$2000 Gold sponsors will receive a 1/2 page ad in the program, two conference attendees.
$1000 Silver sponsors will receive a 1/4 page ad in the program, one conference attendee.
$500 Bronze sponsors will receive their name listed in the program, no conference attendee.

Golf Sponsorships
$2000 Corporate Sponsor
$1000 for beverage cart sponsors (2 available)
$750 for trophies/awards
$200 for closest to the pin (2 available - men and women)
$200 for longest drive (2 available - men and women)
$200 for hole sponsors (18 available)
### Program Highlights

- **April 13:** Attendees will be able to network with District Engineers at the Ice Breaker. Hors d’oeuvres will be served, 1 drink ticket provided per person, and a cash bar will be available. On April 14, a continental breakfast, morning break, and lunch will be provided.

- **April 14:** Keynote Speaker Mr. Greg Giddens will present information from the Department of Homeland Security on current and pending projects, lessons learned with small businesses, and discuss non-facility related small business opportunities.

- **April 14:** District Engineers Panel will present information on their current and upcoming workload.

- **April 14:** Representatives from the Tulsa and Little Rock District Corps of Engineers will present information on marketing to USACE, proposal preparation, proposal evaluation and the changing culture of contracting to more indefinite delivery/indefinite quantity contracts. Representatives from the Small Business Administration will present a discussion of teaming arrangement and joint ventures.

April 13 - 14, 2010  •  Tulsa, Oklahoma  •  http://posts.same.org/Tulsa
Scholarship Golf Tournament fee is $80. Four person scramble, with a shotgun start at 13:30. Late registration (after April 1) will result in less choice for pairings. All proceeds go to the Scholarship and Engineering/Construction Summer Camp.

**WHAT:** 4-person scramble format

**WHEN:** Tuesday, April 13, 2010
13:30 shotgun start (12:30 check-in)

**WHERE:** Cherokee Hills Golf Club at Hard Rock Casino, Catoosa, OK

**COST:** $80.00 per player - includes green fees, cart, and range balls

**GOLF CONTACT:** Dwayne Beavers, (918) 582-9110, dbeavers@cherokee-crc.com

---

**MEET NEW PEOPLE, SHARE BUSINESS IDEAS, FIND TEAMING PARTNERS!**

The April 14 afternoon “Speed Networking” session pairs Small Business representatives with large business and Government counterparts in a formalized one-on-one tabletop “get to know you” format. Company profile forms will be sent to conference attendees prior to the conference for each company to outline their name, locations, company interests, and company expertise.

The duration of the “Speed Networking” session is slated for 2 hours, with each small business rotating a minimum of 8 times for 10 minutes each. The 10 minute sessions will give an opportunity for small businesses to discuss their capabilities with the large business and Government personnel, and in turn, will give each side a chance to outline their desires and needs. After each 10 minute session, the small business representatives will rotate to their next table where a different large business or Government representative will be waiting for the next discussion.

The “Speed Networking” session takes place at the end of the conference to allow for additional, informal networking after conclusion of the conference.
The Tulsa Post of the Society of American Military Engineers (SAME) is pleased to announce plans to award three $1,000 Justin Noyes Scholarships to senior high school students who intend to earn a degree in engineering, biological science, or physical science.

These annual scholarships are in honor of Marine Sergeant Justin Noyes, an American Hero, who fought and died while serving our country in Fallujah, Iraq. Named for a remarkable young man who was fiercely dedicated to the service of our Nation, the scholarships recognize students whose accomplishments; associated with scholastic abilities, leadership, and love of country; are honored by SAME and mirror the achievements of Sergeant Noyes.

Students from high schools in the Tulsa area who meet the eligibility requirements will be considered for the scholarship awards. Students from high schools outside the Tulsa area, including high schools in other states, are eligible if they are nominated by a Tulsa Post SAME member.

Applications must be postmarked by April 6, 2010. For more information go to www.same.org/Tulsa or contact David Epperly at depperly@all-llc.com or 918-382-7581.

Engineering & Construction Camps

Where future engineers come together to learn
Where public- and private-sector leaders come together to teach
Where sponsors come together to support the future of engineering

SAME supports America’s future engineers by hosting three educational camps for high school-aged students who show promise or interest in engineering.

The week-long camps take place during the summer in a variety of settings—the colorful Colorado Rockies, the beautiful Southern California Coast and the historic Mississippi Valley.

Each camp has its own unique focus and theme and is a one-of-a-kind opportunity to learn about engineering from professionals, learn practical skills and gain exposure to the military services.

Attendee registration is now open for the 2010 Joint Engineer Training Conference & Expo
May 4-7, 2010 · Georgia World Congress Center · Atlanta, Ga.
www.same.org/JETC
Co-hosted by the Society of American Military Engineers (SAME) and the SAME Atlanta Post

Join your colleagues at the SAME 2010 Joint Engineer Training Conference & Expo (JETC) where you’ll:

- Take home great ideas, strategies and solutions from industry experts to sharpen your professional and leadership skills;
- discover exciting products and services to help you in the field; and
- network with decision makers who can help you grow your business.

JETC 2010 will feature six technical tracks addressing timely issues affecting the A/E/C and environmental fields, including Contingency Operations, Installation Management, Design and Construction, Water Resources, Environment, and Professional Development. The technical program lays the foundation for the event, supported by an informational Expo area, exciting technical tours and ample networking and social events. For professionals needing to earn continuing education credits, the technical program offers up to nine Professional Development Hours (PDHs).

Feed your engineering interests. There’s something for everyone at JETC 2010. Visit www.same.org/JETC to register today!

Exhibitors and sponsors: Take advantage of this one-of-a-kind opportunity to enhance your company’s visibility at one of the most prominent A/E/C and DOD conferences of the year. 2009’s conference welcomed almost 1,000 attendees, and SAME fully expects JETC 2010 to soar beyond that number in enrollment.

www.same.org/JETC
The Department of the Army, through the U.S. Army Research Office, has been sponsoring special awards in Science and Engineering Fairs across the United States since 1960. The Tulsa District of the USACE and the Tulsa Post of the Society of American Military Engineers is proud to have continued this tradition on behalf of the U.S. Army at the 2010 Tulsa Regional Science and Engineering Fair.

The U.S. Army is proud to recognize the following students and their projects as the winners of each respective category for the 2010 Tulsa Regional Science and Engineering Fair. The Tulsa District Corps of Engineers’ Deputy Commander, Lt. Colonel Eugene Snyman, presented an Army Certificate of Achievement to the following students:

- **Environmental Science Category**, a sophomore from Summit Christian – **Joseph L. Odon** for his project “Is Grey Water ‘Green’?: The Effects of Grey Water on the Aquatic Ecosystem of Adams Creek.”

- **Mathematics Category**, a sophomore from Dove Science Academy – **Aaliyah D. Edwards** for her project “The Greatest Product Part II.”

- **Computer Science Category**, a senior from Oklahoma School of Science and Mathematics – **Onkur Sen** for his project “Creating Musical Variations with Genetic Algorithms.”

- **Life Science Category**, a junior from Union High School – **Meghana Rao** for her project “Group Intelligence vs. Groupthink.”

- **Physical Science Category**, a freshman from Dove Science Academy – **David R. Grotzinger** for his project “The Power is in the Core.”

An overall first place, who also receives the U.S. Army Bronze Medallion for Science and Engineering Excellence, second, and third place winners were also selected to receive a Society of American Military Engineers certificate presented by the President of the Tulsa Post Society of American Military Engineers, Mr. Charley Wall.

- **First Place**, **Joseph L. Odon** for his project “Is Grey Water ‘Green’?: The Effects of Grey Water on the Aquatic Ecosystem of Adams Creek.”

- **Second Place**, **Onkur Sen** for his project “Creating Musical Variations with Genetic Algorithms.”

- **Third Place**, **Meghana Rao** for her project “Group Intelligence vs. Groupthink.”

On behalf of the Tulsa SAME Post and U.S. Army Corps of Engineers we congratulate all of the students, parents, and teachers involved with this year’s Science and Engineering fair. We also thank our volunteer judges: Charley Wall, Loretta Turner, Chris Strunk, Dwayne Beavers, David Pounds, Elias Johannsson, Michelle Lay, Daniel Morales, and Rachel Strunk.
Charley Wall and Joseph Odon, Environmental Science Category Winner and Overall First Place

LTC Snyman and Aaliyah Edwards, Mathematics Category Winner

Charley Wall and Onker Sen, Computer Science Category Winner and Overall Second Place

Charley Wall and Meghana Rao, Life Science Category Winner and Overall Third Place

Volunteer Judges left to right back: Charley Wall, David Pounds, Chris Strunk, Dwayne Beavers, Elias Johannsson, front: Loretta Turner, Michelle Lay, Daniel Morales

Volunteer Judges Loretta Turner and Elias Johannsson

LTC Snyman and David Grotzinger, Physical Science Category Winner
