2005 PROGRAMS

April 2
Community Service Project, Tree Planting & Cookout
Location: Keystone Wildlife Mgt. Area
Sponsor: ALL Consulting

April 20 & 21 🔄 NEW DATE
Annual Scholarship Golf Tournament & District Engineer Panel
Location: Clary Fields & Southern Hills Marriott, respectively
Sponsor: All Sustaining Firms

May 17-20
Education & Training Conference
Location: Louisville, KY

June 7 (Tentative)
Force Protection/Anti-Terrorism
Location: Oklahoma ANG Base
Sponsor: Tetra Tech

June 14-16
SAME Texoma Regional Education & Training Conference
Location: Irving Texas

July — No Meeting/Summer Break

August 10
USACE Civil Works: Recreation Areas Young Member Drive & Summer Picnic (Evening Event)
Location: TBA
Sponsor: ASSET Group

September
Location: TBA
Sponsor: Weston Solutions

October 12 — TBA
USACE Civil Works: Reservoir Operations/Flood Control
Location: TBA
Sponsor: TBA

November 7 - 10
Future Work Panel, Area DPW/BCE Panel Joint Meeting with OKC Post
Location: TBA
Sponsor: URS

December — TBA
Holiday Social
Location: TBA
Sponsor: TBA

Community Service Project
Tree Planting & Cookout at Keystone Lake

Saturday, April 2, 2005
Sponsored by ALL Consulting

Do you like to commune with the great outdoors? Do you like hamburger cookouts? Then have we got a program for you.

Once again, SAME’s Tulsa Post is holding a tree-planting event and cookout at Keystone Lake on Saturday, April 2. So stop foolin’ around! Come join us again this year for a worthwhile community service project and a Saturday of fun and camaraderie with your fellow SAME members and friends.

The tree-planting project will once again be at the John Lowry Management Area near Keystone Lake. Last Year, over 40 SAME members and their families rallied together and successfully planted 2,000 trees (pines and sand plums). Let’s make this event even bigger and better this year!

The Details:
- We will meet at 8:30 a.m. at the Keystone Lake Project Office, then consolidate into pickups and/or SUV’s to travel the remainder of the way. The office road is “down” the side of the dam just as you begin the drive onto the dam from State Highway 51—there is a big sign that reads, “Keystone Dam & Powerhouse” with an arrow pointing down the hill.
- Wear your gardening clothes and bring gloves and shovels and you also might want to throw in a picnic blanket or lawn chairs for the cookout following. The Oklahoma Department of Wildlife has provided the trees.
- Food and drinks will be provided by ALL Consulting, so bring your appetite for a good ‘ol fashioned cookout!

Please RSVP to: Loretta.turner@westonsolutions.com

Remember, all family members and friends are welcome!
About Clary Fields

Serene, all-golf setting designed by former All-American golfer Tripp Davis, Clary Fields is nestled in a pleasant valley setting southwest of Tulsa, OK. Several holes skirt the edge of the deep woods and others are bordered by native grasses, as natural ponds and streams provide water hazards. The course offers generous fairways and greens with gentle rolls for a game of leisure.

Native grasses, woods, and streams form the backdrop for a unique golfing experience just minutes from downtown Tulsa, OK. The course plays to a par of 71 at just over 6,700 yards, and length is not as crucial as accuracy. Some of the shorter par-4 holes will give options of playing it safe, along with opportunities to go for broke. The greens are positioned to be more receptive to shots coming in from the safe areas.

Only minutes from downtown, Clary Fields is easily accessible to golfers in and around the Tulsa area. It is located on S. 49th W. Ave. just off of the new Creek Turnpike extension west of HWY 75.

From downtown
Tulsa take HWY 75 South to the Creek Turnpike. Go West on the Turnpike to the first exit, 49th West Ave., and take a right.

Phone: 918-248-4080
Go to claryfields.com for more information

*You will earn 1 PDH for attending this meeting.
Professional Registration Exam Dates and Application Cutoff Dates

The following information was obtained from The Oklahoma State Board of Registration for Professional Engineers and Land Surveyors website: www.pels.state.ok.us

Application forms can be found at the website.

1. Professional Engineer and Land Surveyors Exams:
   - October 28, 2005
   - Cutoff date for accepting applications is August 3, 2005

2. Engineer Intern (E.I.) and Land Survey or Intern (L.S.I.) Exams:
   - April 16, 2005 & October 29, 2005
   - Cutoff date for accepting applications is September 5, 2005, respectively

Contact David Steele for information about study materials at David.Steele@swt03.usace.army.mil or 918.669.7180.

Scholarship Application Deadline

The Tulsa SAME has plans to award two $1,000 scholarships to senior high school students who intend to earn a degree in engineering, biological science, or physical science. The deadline is quickly approaching.

Application packages must be postmarked by March 11, 2005. Application packages can be downloaded from the Tulsa Post Website at www.same.org/tulsa. If you would like to nominate a student, please contact Clif Warren, at Clif.Warren@swt03.usace.army.mil or 918.669.7671.

SAME IN THE COMMUNITY

On Wednesday, February 16th, Chris Strunk and LtCol John Blickensderfer presented their perspective on the engineering career field to the Tulsa Technology Center (TTC) Drafting and Design classes. Most of the students were interested in a career in Engineering or Architecture. As part of their class work each student had to research his or her prospective career field. This gave the students better insight into the daily functions and tasks engineers have to perform. Chris and John were invited to speak as engineers in the local community.

Mr. Strunk presented the career path he took and the aspects of his job as an Architectural Engineer. He explained that architectural engineers are not common and provide a unique service to the architect/engineering community. He provided information about SAME, the high school scholarships awarded by the Tulsa Post as well as the Tulsa Post sponsorships to numerous summer camp programs related to the Engineering field.

LtCol Blickensderfer presented his career path, going from a draftsman to engineering technician to Civil Engineer. He explained his military career and what engineers typically do in the United States Air Force. He explained all the college benefits the military provides as well as the many adventures he has experienced around the world. John is a past graduate from the TTC Drafting and Design program. This gave the students a clear understanding of what they can accomplish with the skills they have learned at TTC.

The students asked many questions and hopefully will benefit from the knowledge presented. We wish them the best of luck in their future careers.
A special thanks to the following Tulsa SAME members for their participation in the 2005 Tulsa Regional Science and Engineering Fair, February 26-27, 2005.

**Nancy Casto**  **Ellen Stevens**
**Andrew Cueto**  **Chris Strunk**
**Dave Daniels**  **Loretta Turner**
**COL Miroslav Kurka**  **Clif Warren**
**Tim McDonald**

These Tulsa SAME members participated in the judging of middle and high school projects in a variety of scientific categories. The Tulsa Regional Science Board was very appreciative of the support received.

**COL Miroslav Kurka** presented Army awards to high school winners in the categories of engineering, environmental science, mathematics & computer science, life science, and physical science, along with a team award. SAME awards (certificates and SAME hardhats) were given to the top three of these category winners by COL Kurka.

**The three winners were:**

1st Place: from the Engineering Category, a sophomore from Dove Science Academy, - **Catherine Cameron** for her project “Maxwell’s Demon; From Theory to Practice”

2nd Place: from the Life Science Category, a senior from Grace Christian School, - **Julia R. Stanton** for her project “Capsule Endoscopy: A New Diagnostic Medical Tool, Part II”

3rd Place: from the Environmental Science Category (which includes Earth and Space Science), a senior from Dove Science Academy – **Nesreen Y. Mughrabi** for her project “Got Chalk?”
Serving federal, state government and industry clients in more than 30 states and several foreign countries, ALL Consulting is a leading small business provider of services related to environmental science, environmental planning, E-commerce, data management, intelligent database applications and geographic information systems.

ALL Consulting team’s professional experience and qualifications rest with the actual individuals who are working on projects. We simply propose real experience, real knowledge and the time for the tasks at hand. Embodying signification local/regional/nationwide knowledge, talent and drive, our team has delivered on a wide array of projects as they relate to environmental and data management services.

Our federal customers look to ALL Consulting for leadership in environmental engineering, environmental training and sustainability technical support. Additionally, ALL has provided comprehensive environmental GIS tools for visually presenting data related to Army facilities, statewide oil and gas commissions and for the Department of Energy site specific spatial analysis projects. Other services have also included design of a tank wash facility, restoration of ecosystems and various HTRW and NEPA services.

Coordinating with federal agencies, state governments, and local stakeholders, ALL has provided a broad variety of assistance and products related to the production of Coal Bed Methane including comprehensive handbooks on Best Management Practices and Beneficial Uses of produced water.

Founded in 1999, ALL Consulting is headquartered in Tulsa, Oklahoma with office locations in the St. Louis Metro area and Houston, TX. ALL was selected in 2003 and 2004 as one of Tulsa’s 25 fastest growing companies in revenue and employment over the previous three years. Today, ALL employs 30 professionals and is certified as a SBA HUBZone company.
